2-litre freezing cylinder

Air-cooled

Extra options

- ✓ Self-service piston
- ✓ Stickers

The advantages for you

Açaí is a deep purple berry from the Amazon and is known as a true superfood. This exotic flavor is delicious as soft serve ice cream. With this special açaí machine, you can easily serve popular açaí bowls while attracting a whole new customer base.

The machine does not feature a pump, which makes it very easy to clean. In addition, the machine is available as a self-service version. The auto-return lever and the deactivated control panel allows people to serve their own soft serve. Extra efficiency for your business and an even more pleasant experience for guests.

*Branding only available in collaboration with Açaí Benelux.
